They were asking me about water and sewer. Can you forward this to the zoning committee? Just give them a heads up on what Olsen's trying to do.

It's our understanding they are evaluating sites for industrial development, but we don't have any information on certain companies or categories of industrial.

Do you have any more information on this future site development? Housing, businesses, other?

> We're hoping you can help point us to folks who can help identify who, if anyone, provides water service to this area and what the capacity is. I have attached the site near Cortland that is under consideration. Could you direct us to someone who could help mark up the map identifying the locations of water lines or provide shape files, it would be much appreciated. Please let me know if you have any questions.
